Dear Friends and Cattlemen,

We would like to extend an invitation for you to join us February 4, 2017, for our annual production sale.

Thank you to everyone who has helped support us in the past, and thank you to any new potential customers for taking the time to check out what we've been up to. Year in and year out we do our best to bring you genetics that will continue to improve your own operations.

Again this year we will be having a video auction on the farm south of Rocklake.

We feel very strongly again this year about the quality of the offering. Top to bottom we think you will be happy you took the time to come see for yourself. This year the Angus bulls achieved a new personal best for us in terms of weaning performance. The Angus sale bulls amassed an average 205-day-weight of 846 lbs.

The development of the bulls remains the same as it's been the past few years. High roughage ration consisting of alfalfa, millet hay, corn silage, whole corn and a protein concentrate from J&R Feeds. We develop them with their futures in mind. Top to bottom the group as a whole have good feet and are structurally sound.

We encourage you to contact us with any questions you might have about the offering. We look forward to seeing you February 4th!

Sincerely,

The Carters and Penners

*Coy Taylor Carter,
joined the crew on
Dec. 1, 2016*

A York calf out of a first-calf heifer that has always stood out. He's the highest adjusted weaning Hereford bull that is laid out in a super long, attractive pattern. He's always had that "herd bull" look since birth.
